## The Original Dumpster Shoe™

**The Original Dumpster Shoes™** are designed to solve the widespread problem of steel dumpster wheels denting and damaging the ground surfaces that the dumpsters are placed on. Drivers have resorted to placing pieces of wood on the ground surface in an attempt to prevent surface damage which is ineffective, inefficient and results in the driver having to get in and out of the truck cab multiple times while attempting to position the wood pieces under the dumpster wheels.

Wood is the old way of protecting surfaces...The Original Dumpster Shoe™ is the future!

- **Checkers Safety Group is one of the largest manufacturers of safety products in the world**
- **They manufacture the most popular products in the highly-demanding mining industry**
- **Checkers polyurethane products are manufactured at company headquarters in Broomfield, Colorado**
- **Polyurethane is resistant to extreme weather conditions, tears, abrasions, oils, and solvents**
- **Polyurethane is extremely lightweight compared to excessive steel and wood counterparts**
- **Long-lasting product life span results in cost savings**
- **Our Dumpster Shoe is engineered to reduce damages to all hard surfaces**
- **The Dumpster Shoe is manufactured with high visibility yellow polyurethane**

### PRODUCT INFO

**THE ORIGINAL DUMPSTER SHOES™** are manufactured with highly durable, lightweight polyurethane. They are designed to provide a large footprint for dumpster wheels to prevent damage to asphalt parking lots. Dumpster shoes are quick and easy to install, and make the process of loading and unloading dumpsters safer.

**Material:** UV Stabilized Polyurethane

- Features molded grip on base to eliminate dumpster slippage
- Provides quicker loading and unloading times by eliminating the need to get in and out of the truck cab
- Dumpsters won't roll or move with the dumpster shoe
- Reduces wear and tear on trucks and operating parts
- Lower insurance costs by avoiding damaging asphalt surfaces

MODEL: DS8-Y

MODEL: DSL225-Y

#### APPLICATIONS

- Waste Management
- Construction
- Military Sites
- Utilities Maintenance
- Transmission
- Heavy Industry
